ROCA News Letter

...raising world changers

EQUIPPED **2**
THRIVE

Dear Parent,

We thank God for another successful term in the academy. I and my team are taking his opportunity to thank you our dear parents for your cooperation and support all through the term and entire session, to ensure that our learners have had a productive time so far in the academy.

The lessons have been taught with a spiritual undertone, thereby making our learners understand that they are God's Ambassadors on the earth, that they have been sent here to positively light up the world, and that they are here to live a purpose driven life while making a formidable impact in every sphere of influence they have been called into. All of these have been taught in age appropriate ways to our learners.

Some of our learners may not be able to tell you verbatim all they have learnt, but trust me, they know these things, the seeds have been sown, and when they are faced with situations related to the classes they have had, you will see them weighing their actions and decisions, and they will show forth the fruits of the seeds of knowledge we have collaborated with you to plant in them.
